

## Add Alexa or Google with Level Connect Wi-Fi Bridge

Level Connect Wi-Fi Bridge provides additional Wi-Fi connectivity for any Level Lock or Level Bolt. By adding our Wi-Fi bridge you can enable real-time options like remote operation, keypad code and activity history updates. In addition, Level Connect enables Level Lock and Level Bolt to integrate into your favorite home automation app like Google Home and Amazon Alexa.

## **level** Keypad

## Create and share key codes.

Level Keypad brings the convenience of unlocking with key codes to your Level lock. Beautifully crafted for discreet guest access. Create and share codes with guests so they can access your home without a phone or keys. Give renters, dog walkers, cleaners, contractors, a unique key code to unlock your home. Compatible with every Level Lock & Level Bolt.

Quickly lock the door by pressing the checkmark button on your way out. LED backlighting allows you to easily enter key codes in low light. A wireless and weatherproof design gives you the freedom to discreetly install anywhere near your lock.
